with operation cord

CORD

 made  
in  
Germany

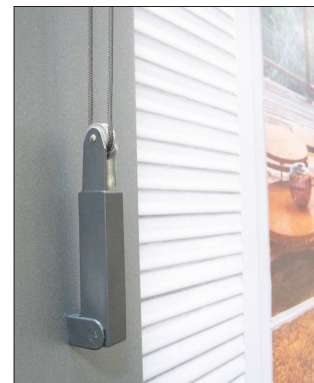

### Technical informations:

- for plafond - roof pitches till max. 15°
- System size: max. 12m<sup>2</sup> - width max. 4000 mm / length max. 6000 mm  
→ An additional profile (middle profile) must be used for system widths more than 2000 mm. Optionally, the velcro<sup>®</sup> profile can be supported with a stabilising profile, if it is not possible to mount a middle profile (up to max. 2700 mm).

- Available colors:  
alu profile rod: white, anthracite, alu-look - further colors on request  
alu profile with velcro<sup>®</sup> tape: white, alu-look  
accessories in matching colors  
spring tensioner: white, anthracite
- All used plastics are uv-resistant.

### Scope of delivery:

- ready-made fabric with sewed velcro<sup>®</sup> tapes from regular distances of appr. 400 mm - the sewing thread is uv-resistant
- aluminium profile rods with operating cord, operating unit, glider and guiding carriages
- operating handle set for operating one CORD system
- ceiling clips (recommendation every 50 cm)
- aluminium profile with velcro<sup>®</sup> tape and mounting hooks
- spring tensioner (cord weight available on request.)

without assembling screws

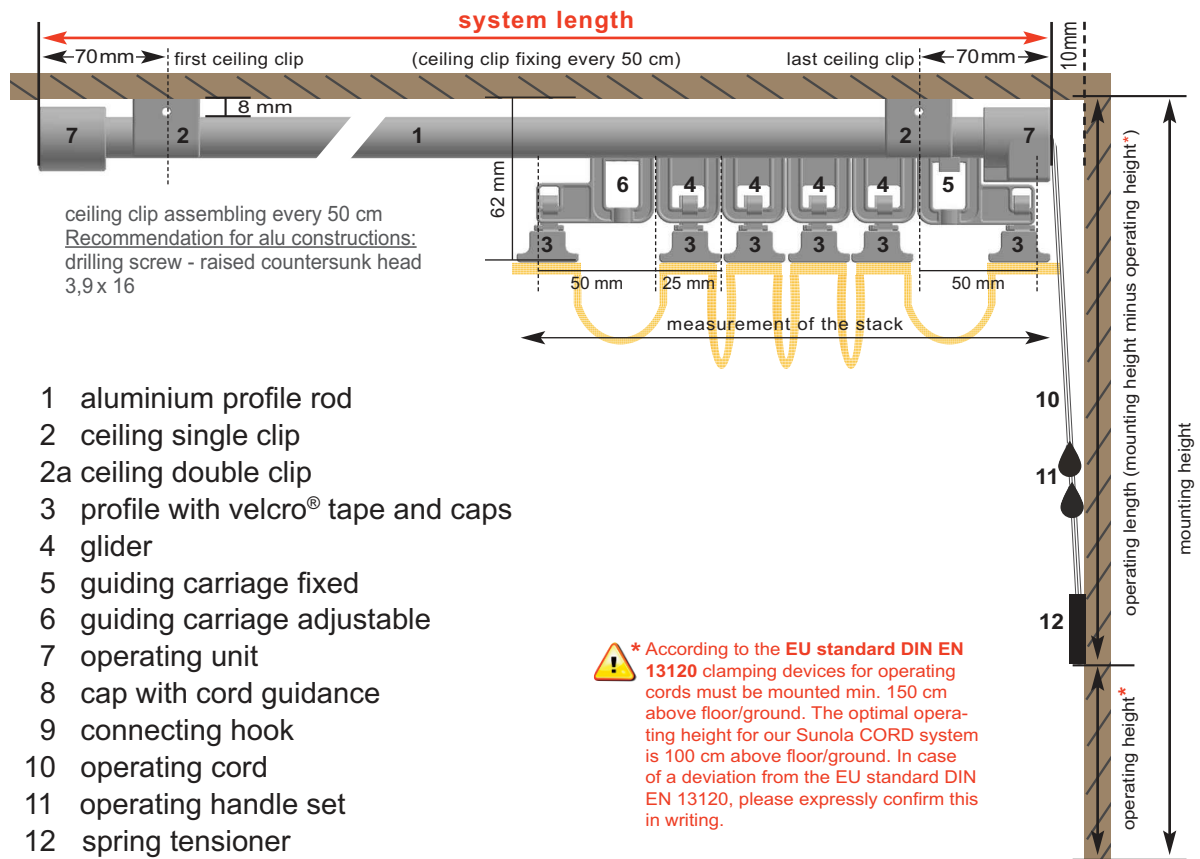

#### Child safety of interior privacy and sun screening:

The operating lengths have to be produced and assembled in consideration of the **EU Standard DIN EN13120** !

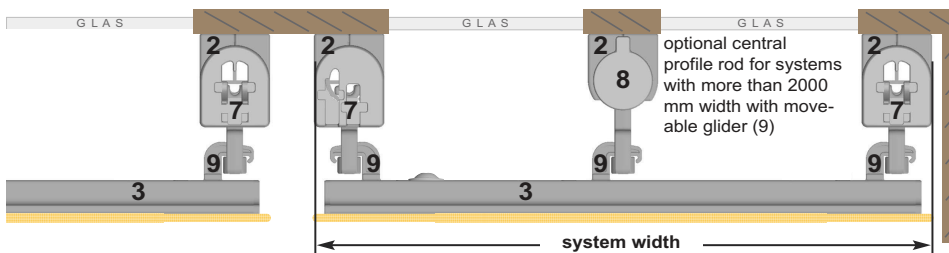

In strong wind or storm the purchaser shall be individually responsible for the adequate protection of the sunola wintergarden systems. In any warranty claims, please see our terms and conditions on **www.sunola.de**.

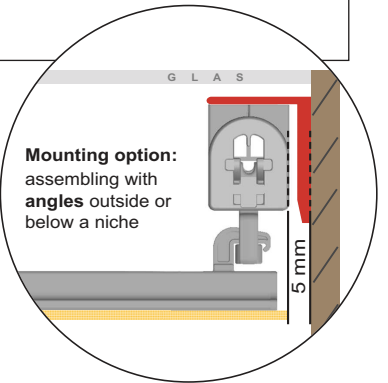

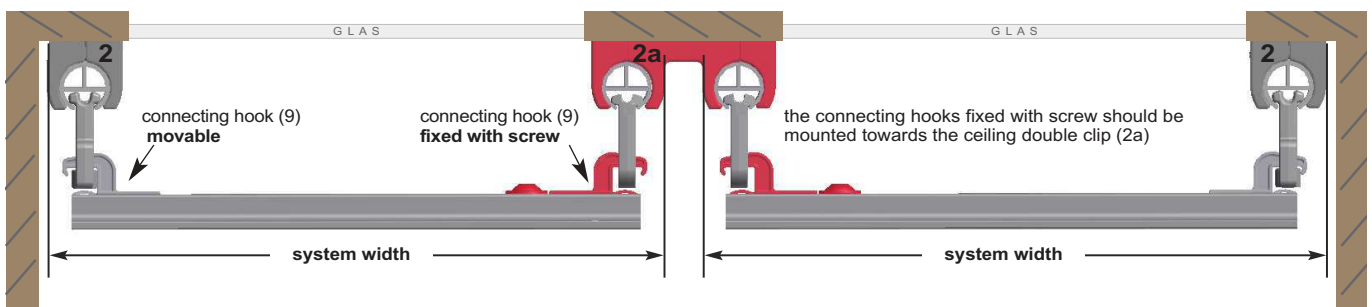

### MOUNTING WITH CEILING SINGLE CLIP:

**Mounting option:**  
 assembling with  
 angles outside or  
 below a niche

### MOUNTING WITH CEILING DOUBLE CLIP:
